

Dear Exhibitors and Visitors,

We are pleased to host you at the International Trade Fair for Installations and Equipment INSTALACJE 2008. Your presence at the show will most certainly enrich the offers for the whole sector and confirm the strong brand of our fair.

Leaders are with us

The upturn in the installations sector results in a great popularity of offers. This positive trend is reflected in the impressive number of applications to INSTALACJE 2008 although the event will start in more than three months. The fair will set new records also as regards the number of participants, the exhibition area and the number of registered new offers. We are expecting **over 500 exhibitors**. Market leaders will be there, as well.

Increased area

We have prepared **as many as 7 exhibition halls** for our exhibitors. They will be able to present comprehensive offers for the installation sector. The trade fair organisers have decided to use Pavilion 2 as an additional venue for exhibitors from the ventilation sector. Heat generation and heating technologies will be located in Pavilions 4, 5 and 9 while water supply and waste water technology will be in focus in Pavilions 6, 6A and 6B. We are currently working on the location of stands and we hope to be able to send you a confirmation of your participation in the fair by mid February.

Trade shows that meet expectations of the whole sector

The organisers of INSTALACJE are constantly working on making the programme of accompanying events more attractive. We are especially committed to preparing special events.

The programme includes:

- **Polish Installers Championships**
- **Fireplaces on Fire**
- **Heating Networks Park**
- **BudShow**
- **A special series of seminars devoted to the application of installations in churches with a presentation of selected products for participants of the Meeting of Economists of the Polish Episcopate** (potential sponsors are requested to contact us)
- **Forum of Installation Technologies**
- The programme will be full of **conferences, seminars and discussion panels** presenting and focusing on the most important issues for the installation sector

Exhibitors, register your new offers

This offer will help you fully promote your company and encourage more professional visitors to come to the show. Your potential clients are among those visitors.

We have already started **online registration of new offers**. Please register your offers by **15 February**. It is a perfect way to present your products directly to professionals. Information about your new products available on the market will be published online, in the guide for visitors sent to professional visitors from the sector and in the catalogue of exhibitors.

The offer is free of charge!

MEGA BANNER as your ad

Benefit from our special promotional package: **WARMER & SAFER**. This offer is a perfect way to promote your company and your brand in front of a wide group of clients. Advertising services include the Mega Banner that can show your logo. Please find enclosed details of this offer.

Our offer is the guarantee of your success.

We are convinced that INSTALACJE 2008 will serve as a professional forum for exchanging knowledge. The activities undertaken and our joint efforts will make the seventh show a top quality event and will confirm its position as the most important event for the installation sector.

Best regards,

INSTALACJE 2008 Project Team
