EXPOSITION

Scope

- heat generation and heating technology
- ventilation and air-conditioning technology
- electric and power installations
- water supply and sewerage systems
- gas technology
- services, contracting, consulting

New offers

- the exhibitors presented almost 100 new offers. Their promotion was strengthened through a special exposition entitled "New Product Island" and through the publication of the "Guide to New Products".

SPECIAL EVENTS

The Train of Viessmann and Friends

- a joint initiative of VIESSMANN, GRUDFOS and the POZNAŃ FAIR. As a result, almost 1.500 installation experts and designers from all over Poland came to the Poznań show in special trains (each day, the train brought visitors from a different part of the country).

Forum of Installation Technologies

- an all-day series of conferences and discussions with hundreds of participants; the event included a general session and four theme sessions: heating, ventilation and air-conditioning, water supply and sewerage systems, intelligent building

BudShow – Energy-Efficient House

- interactive presentation of energy-efficient construction materials and technologies; for individual investors

Installation party

- an evening reception for exhibitors and their customers; party and live music
