Positive developments noticed by DREMA and FURNICA organisers let us estimate that both events will increase by 20 percent this year.

According to the information given by the organisers, the upcoming DREMA will attract almost 550 companies that will exhibit their offers on the area of 24,000 m².

The Trade Fair of Components for Furniture Production FURNICA will also record an increase. Its area will amount to approx. 6,000 m² this year. 200 companies will showcase their products.

New offers are a good predictor of positive developments. As of today, the organisers' office has received over one hundred registrations of cutting edge solutions for the sector. Visitors will be able to admire them at the Poznań show in April.

According to Tomasz Kobierski, PIF Products Group Director, these estimates about DREMA and FURNICA confirm good sentiments on the market.
